1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: NASA Standard 6001 Igniter
Synonyms: None

Company Identification: NASA White Sands Test Facility
12600 NASA Road
Las Cruces, NM 88012 USA
1-575-525-7634 (For product information) 1-800-424-9300 (For emergencies - CHEMTREC)

2. COMPOSITION / INFORMATION ON INGREDIENTS

CONTAINING: HAZARDOUS AND/OR REGULATED COMPONENTS

California Prop 65: This product does not contain an ingredient(s), above the safe harbor limits, which are known to the state of California to cause cancer, birth defects, or other reproductive harm.

HAZARDS DISCLOSURE: This product does contain known hazardous materials in reportable levels as defined by the OSHA Hazard Communication Standard 29 CFR 1910.1200 except as listed above. As defined under Sara 311 and 312, this product contains known hazardous materials.

3. HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW
WARNING! KEEP AWAY FROM HEAT AND IGINITION SOURCES. HARMFUL IF SWALLOWED. AVOID BREATHING VAPORS. USE WITH ADEQUATE VENTILATION. AVOID CONTACT WITH EYES, SKIN AND CLOTHES. WASH THOROUGHLY AFTER HANDLING. KEEP CONTAINER CLOSED.

HMIS/NFPA Rating: See Section 16

POTENTIAL HEALTH EFFECTS

ROUTES OF ENTRY: Skin. Eye. Inhalation. Ingestion.
TARGET ORGANS: Skin. Eyes. Respiratory System

INHALATION: May be harmful if inhaled. Inhalation of vapor or mist may cause irritation to the respiratory tract.

INGESTION: May be harmful if swallowed
SKIN CONTACT: Contact may cause skin sensitization or irritation.

EYE CONTACT: Contact may cause eye irritation and redness.

AGGRAVATION OF PRE-EXISTING CONDITIONS: Persons with pre-existing eye, skin or respiratory conditions may be more susceptible.

POTENTIAL CHRONIC HEALTH EFFECTS: No known chronic hazards, however exposure to this material could produce general deterioration of health by an accumulation in one or many human organs.

4. FIRST AID MEASURES

INHALATION FIRST AID: Remove victim to fresh air and provide oxygen if breathing is difficult. If not breathing, give artificial respiration, preferably mouth to mouth. GET MEDICAL ATTENTION IMMEDIATELY.

SKIN CONTACT FIRST AID: Immediately flush skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. GET MEDICAL ATTENTION IMMEDIATELY. Wash clothing before reuse. Thoroughly clean shoes before reuse.

EYE CONTACT FIRST AID: If contact with eyes, immediately flush eyes with plenty of water for at least 15 minutes, while holding eyelids open. GET MEDICAL ATTENTION IMMEDIATELY.

INGESTION FIRST AID: If swallowed, wash out mouth with water provided the person is conscious. Do not induce vomiting. Never give anything by mouth to an unconscious person. GET MEDICAL ATTENTION IMMEDIATELY.

5. FIRE FIGHTING MEASURES

FLAMMABLE PROPERTIES: Combustible Material

AUTO IGNITION TEMPERATURE: NA

FLASH POINT: Closed Cup: 250°C.

FLAMMABLE LIMITS IN AIR, % by Volume: lEL: NA uEL: NA

EXTINGUISHING MEDIA: Dry chemical, carbon dioxide, Foam.

FIRE & EXPLOSION HAZARDS: Combustible material

SPECIAL INFORMATION:
In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Do not approach containers suspected to be hot.
6. ACCIDENTAL RELEASE MEASURES

7. HANDLING AND STORAGE

RECOMMENDED STORAGE CONDITIONS: Protect against physical damage. Store in a cool, dry well-ventilated location, out of direct sunlight. Separate from incompatibles. Keep containers tightly closed. Do not store in unlabeled or mislabeled containers. Avoid any possible ignition sources.

SHELF LIFE: See Label on packaging.

HANDLING (PERSONNEL): Avoid contact with eyes, skin and clothing. Use with adequate ventilation. Do not swallow. Avoid breathing vapors, mists, or dust. Do not eat, drink or smoke in work area. Wash thoroughly after handling.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

AIRBORNE EXPOSURE LIMITS: See Section 2 above.
Hexamethylnetetramine:
- OSHA Permissible Exposure Limit (PEL): NE
- ACGIH Threshold Limit Value (TLV): NE
Sodium Metalicate:
- OSHA Permissible Exposure Limit (PEL): NE
- ACGIH Threshold Limit Value (TLV): NE
Acacia Powder:
- OSHA Permissible Exposure Limit (PEL): NE
- ACGIH Threshold Limit Value (TLV): NE

VENTILATION SYSTEM: A system of local and/or general exhaust is recommended to keep employee exposures below the Airborne Exposure Limits. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.

PERSONAL RESPIRATORS (NIOSH APPROVED): If the exposure limit is exceeded and engineering controls are not feasible, wear a supplied air, full-facepiece respirator, airlined hood, or full-facepiece self-contained breathing apparatus. Breathing air quality must meet the requirements of the OSHA respiratory protection standard (29CFR1910.134). Where respirators are required, you must have a written program covering the basic requirements in the OSHA respirator standard. These include training, fit testing, medical approval, cleaning, maintenance, cartridge change schedules, etc. See 29CFR1910.134 for details.

RESPIRATORY PROTECTION: For unknown vapor concentrations use a positive-pressure, pressure-demand, self-contained breathing apparatus (SCBA). For known vapor concentrations above the occupational
exposure guidelines (see below), use a NIOSH-approved organic vapor respirator if adequate protection is provided. Protection factors vary depending upon the type of respirator used. Respirators should be used in accordance with OSHA requirements (29 CFR 1910.134).

SKIN PROTECTION: Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.

EYE PROTECTION: Use chemical safety goggles and/or a full face shield where splashing is possible. Maintain eye wash fountain and quick-drench facilities in work area. Contact lenses pose a special hazard; Do not wear contact lenses since Sodium Metasilicate is a corrosive material.

GOOD HYGIENE CONDITIONS: Wash with soap and water before meals and at the end of each work shift. Good manufacturing practices require amounts of any chemical be removed from the skin as soon as practical, especially before eating or smoking.

10. STABILITY AND REACTIVITY

STABILITY: Stable under ordinary conditions of use and storage.

CONDITIONS TO AVOID: Heat and ignition sources

HAZARDOUS POLYMERIZATION: Hazardous polymerization will not occur under normal conditions.

INCOMPATIBILITY WITH OTHER MATERIALS: Strong oxidizing materials, Strong acids.

HAZARDOUS DECOMPOSITION: Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicological Data:

Acute oral toxicity: Hexaethylenetetramine – LD50 mouse: 569 mg/kg
Acute inhalation toxicity: Hexaethylenetetramine - No Data
Acute dermal toxicity: Hexaethylenetetramine - No Data

Acute oral toxicity: Sodium Metasilicate – No Data
Acute inhalation toxicity: Sodium Metasilicate - No Data
Acute dermal toxicity: Sodium Metasilicate - No Data

Acute oral toxicity: Acacia Powder – No Data
Acute inhalation toxicity: Acacia Powder - No Data
Acute dermal toxicity: Acacia Powder - No Data

Carcinogenic effects: IARC Carcinogen List – Not Listed
NTP Carcinogen List – Not Listed
ACGIH Carcinogenic List – Not Listed

Mutagenic effects: Not available.
Teratogenic effects: Not available.
